UVINSPECTOR POWERLIGHT

www.uvpowerlights.com

Professional UV-A flashlight for the cleaning & hygiene industry

Advanced UV-A LED Technology for Precise Inspections

- Designed for professional use, with a strong focus on visibility, reliability, and durability. The powerful 12 W UV-A LED technology (3 x 4 W) is optimized to reveal contaminants and imperfections, enabling fast, accurate, and efficient inspections.
- The robust housing is manufactured from high-quality aerospace-grade aluminium and features a military-specification anodized finish, providing maximum durability and protection during intensive use. The efficient electronic circuit design ensures reliable and consistent performance.
- The flashlight is powered by a high-capacity 21700 Li-ion battery (5,000 mAh) and can be conveniently recharged via USB-C. For added convenience and safety during inspections, the flashlight is supplied with a wrist strap.

Key features:

- 12 W UV-A LED (3 × 4 W)
- 21700 Li-ion battery (5,000 mAh)
- USB-C charging cable
- Wrist strap for secure handling

Powerful UV-A Technology.
Engineered for Professional Inspections.
